

A day at the hOspital

A day at the hospital

Tuktuk had
a fall and hurt his
forehead. Doctor has
checked Tuktuk and
says he needs to be
admitted to hospital.

Today Tuktuk will

to hospital for

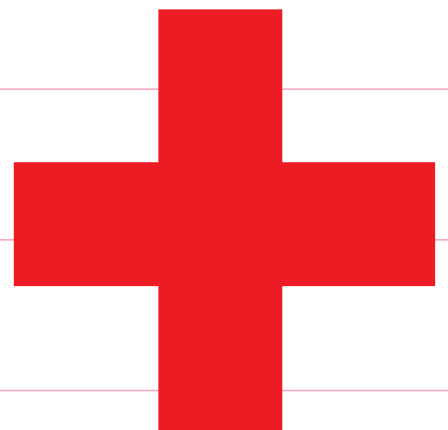

His father stands

outside the ad

to fill up some

ll be admitted
treatment.

In the queue
missionⁿ office
e forms.

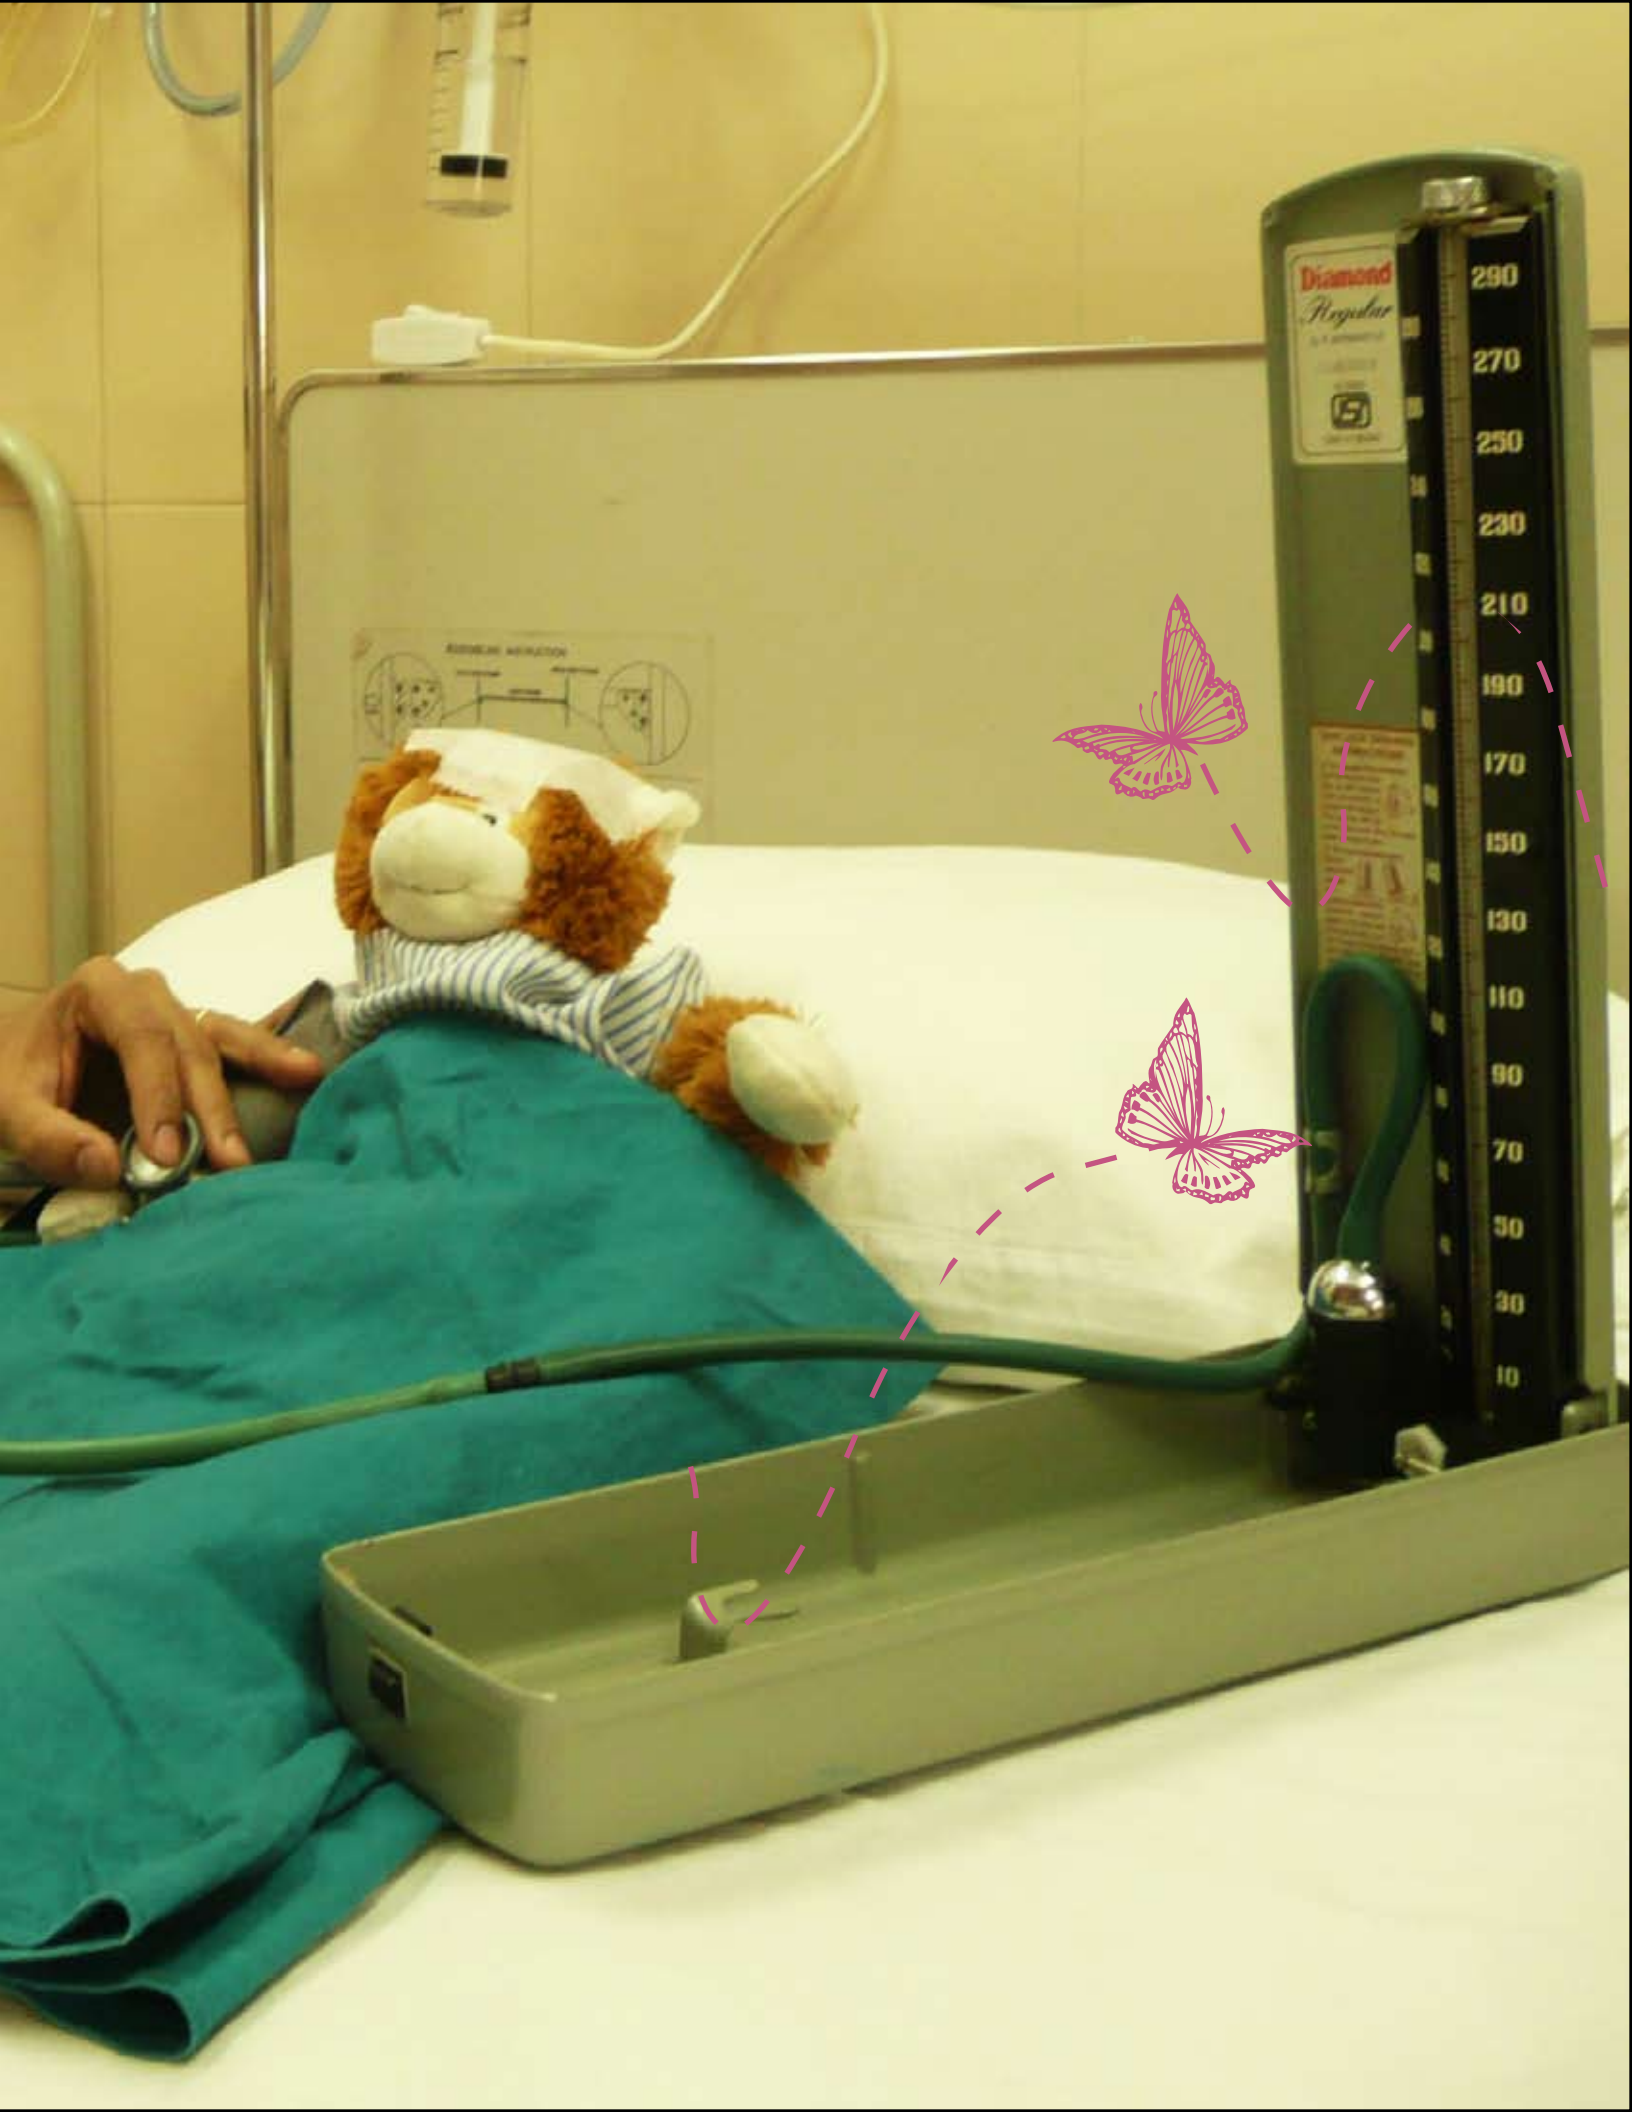

LOOK, Tuktuk is now in his room at the hospital. He has changed into clean and comfortable hospital clothes. Tuktuk's mother is with him. They are waiting for the nurse.

Ah, the Nurse is here. She will check Tuktuk's weight, height, temperature, pulse and blood pressure.

Now the Doctor has
come to examine
Tuktuk. He will find out
what has to be done
to make Tuktuk well.

soon another Doctor also comes to see Tuktuk. This Doctor is older and he is called a consultant. He asks for some tests to be done.

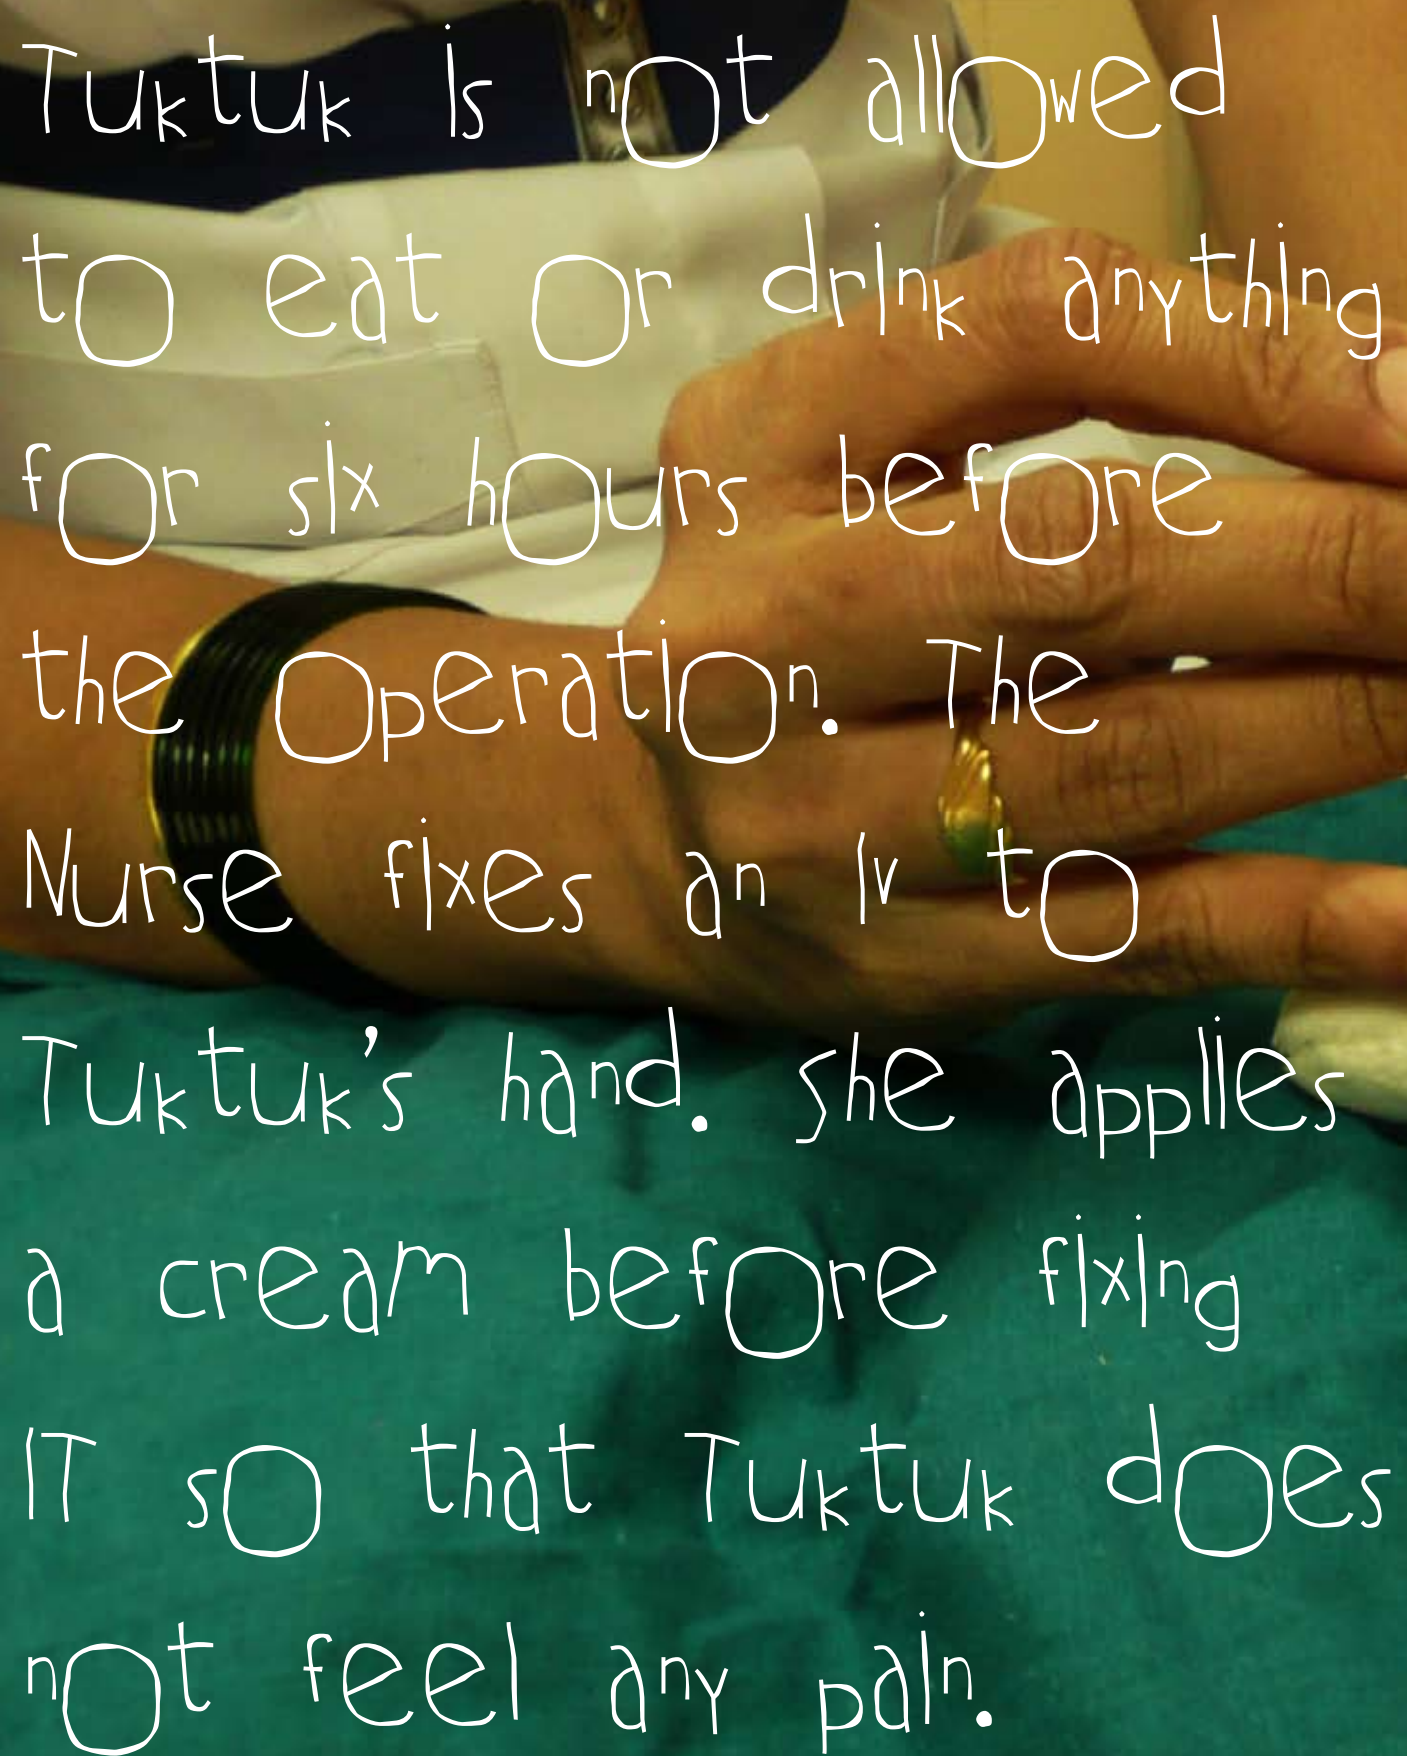

Tuktuk will have a blood test, urine test and an x-ray. The tests will be almost painless.

The Doctors have decided that TukTuk needs a small Operation. It will be done tomorrow morning.

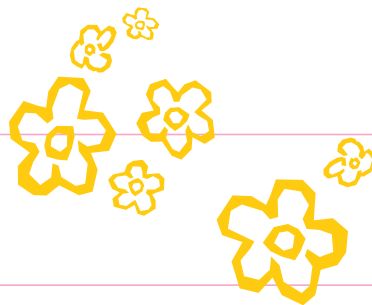

Tuktuk is not allowed to eat or drink anything for six hours before the operation. The nurse fixes an iv to Tuktuk's hand. she applies a cream before fixing it so that Tuktuk does not feel any pain.

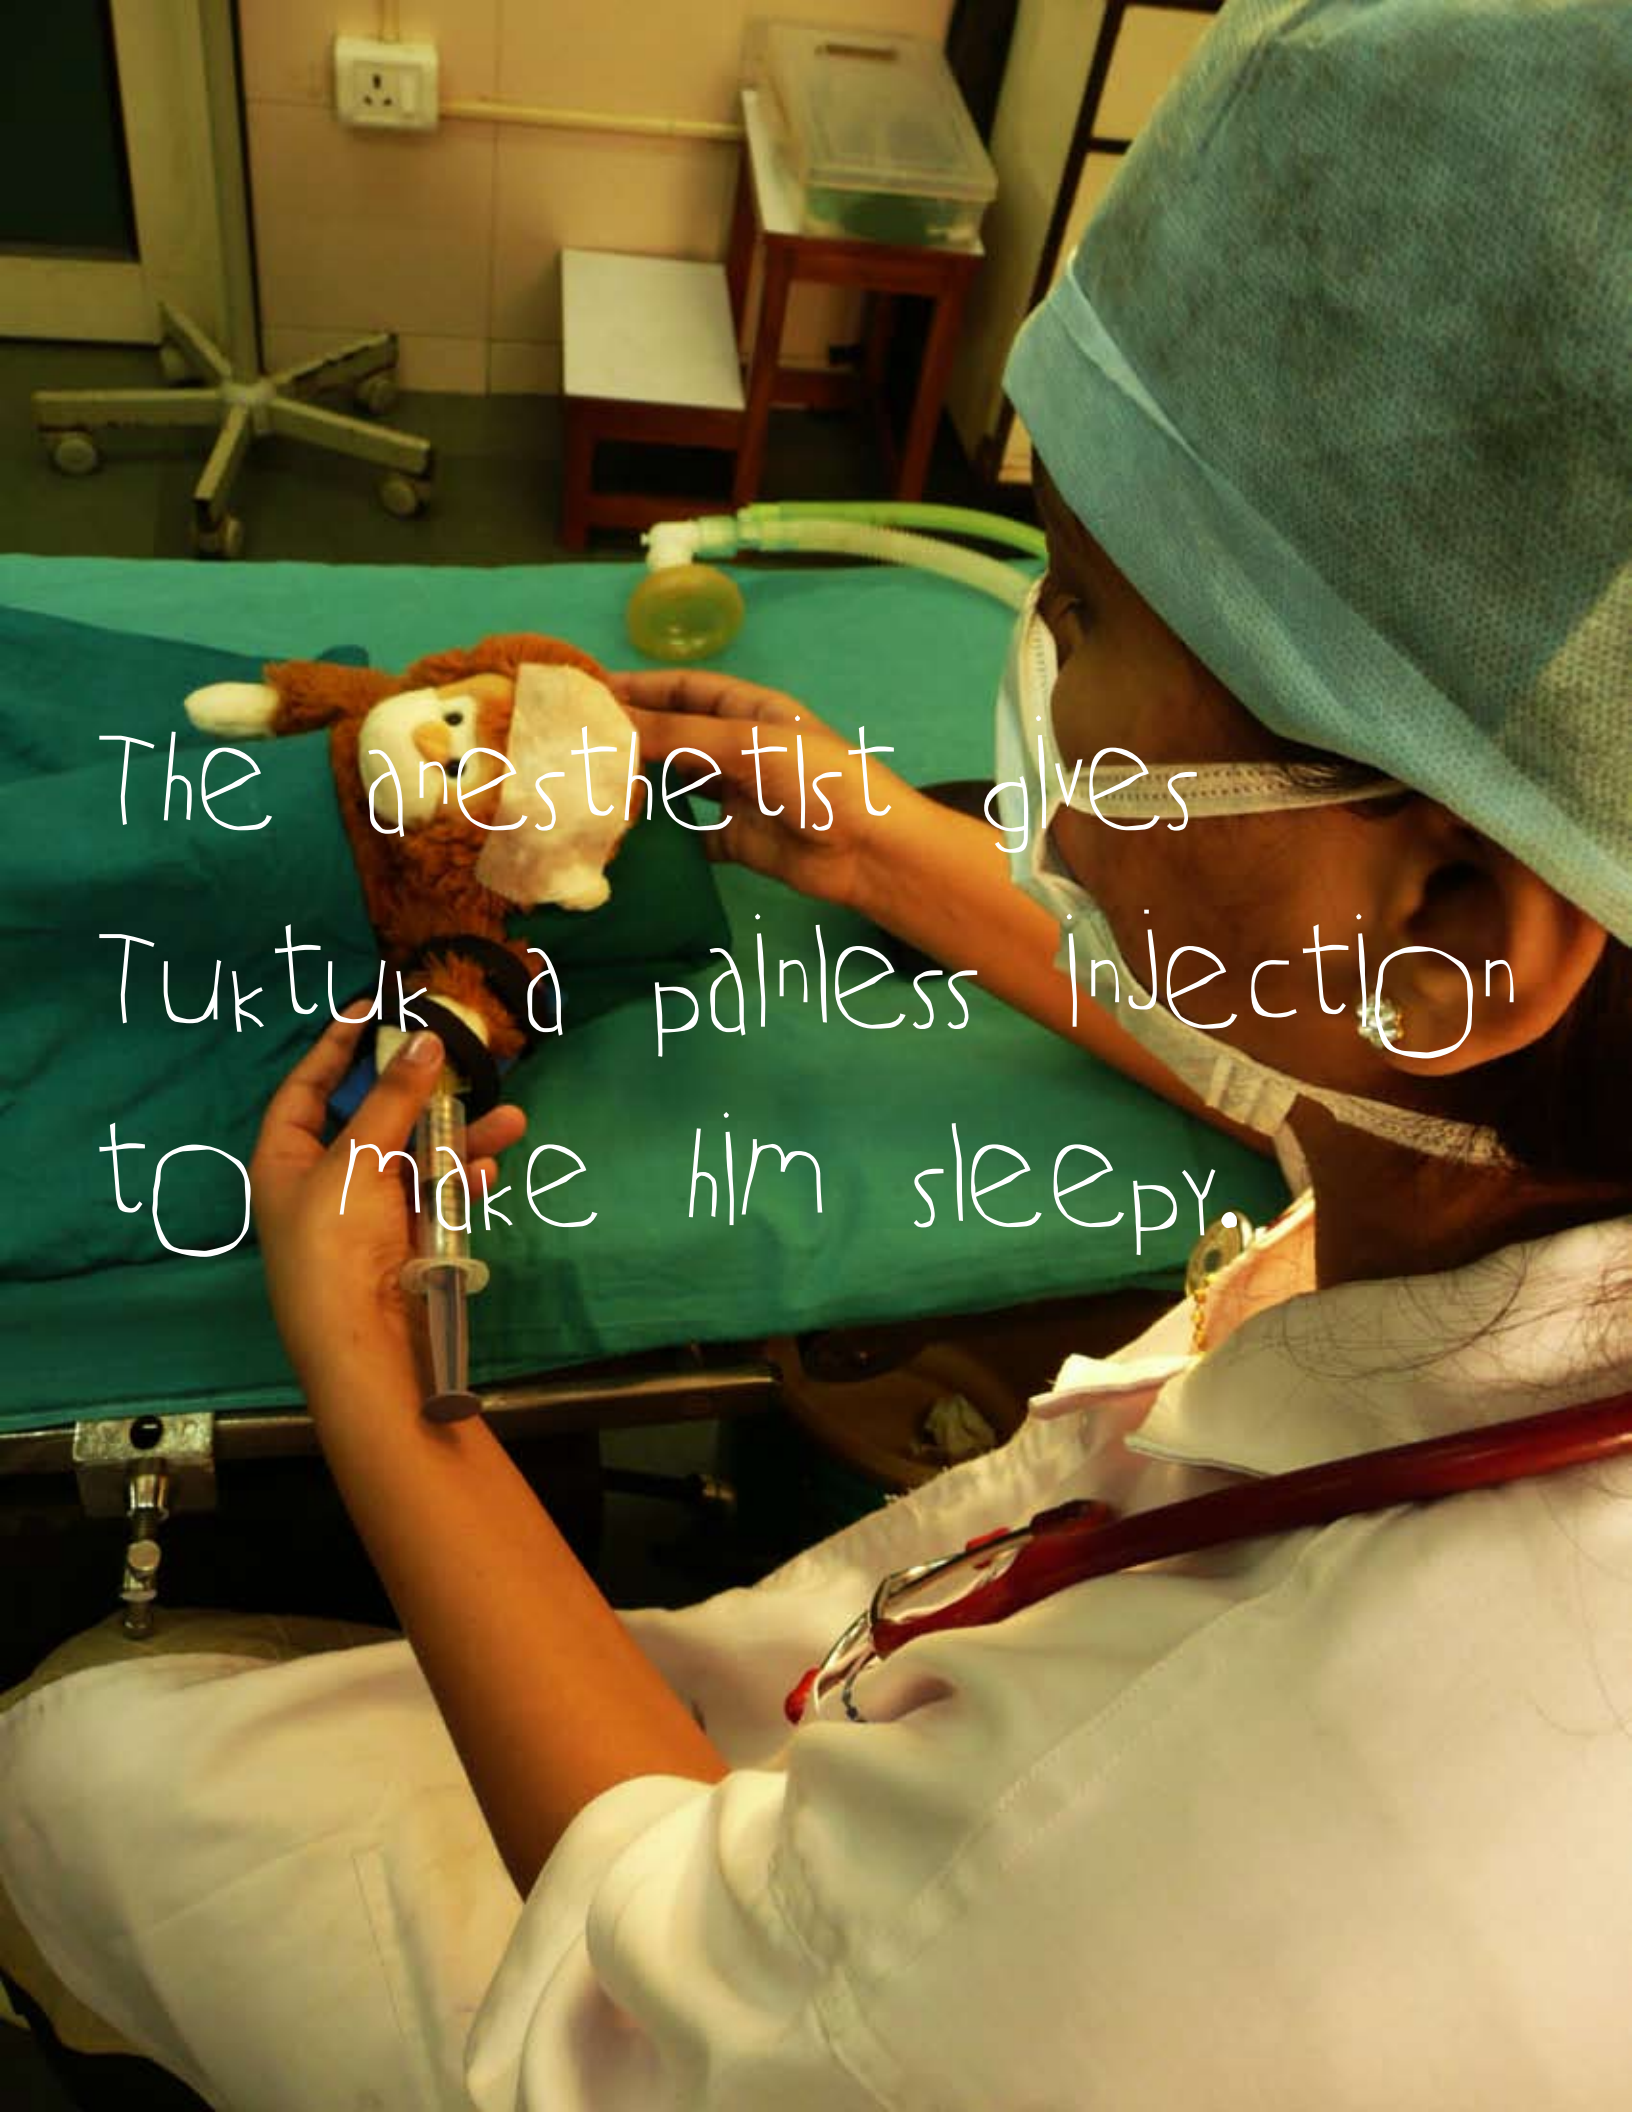

Operation

n Theatre

In the Operation Theatre,
Tuktuk is greeted by
another Doctor. She
has a very long name,
anesthetist. She tells
Tuktuk that she will give
him some medicines that
will make him sleep for a
little while.

The anesthetist gives
Tuktuk a painless injection
to make him sleepy.

Then she asks him to wear a mask - just like Tuktuk's favourite superheroes! LOOK, Tuktuk's scored a 100/100 - he's fast asleep!

Now the Doctors clean up the part that is to be Operated. Then, the Operation begins.

soon, the operation is over and doctors wrap a dressing around the part that has been operated.

Tuktuk is taken to a room where he will wake up. The Doctors and Nurses watch Tuktuk recover. If they feel the patient needs more treatment, he is taken to the ICU.

back in his

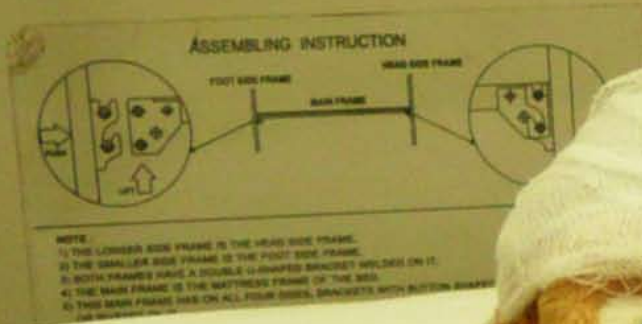

The Doctors will continue with the iv for a while as Tuktuk is not allowed to eat or drink anything yet.

The Nurse brings medicines. These will help Tuktuk heal and reduce the pain.

Ah, Tuktuk's had a small meal. He's feeling much better now.

The Nurse will change
Tuktuk's dressing. He
needs a fresh one to
be put on.

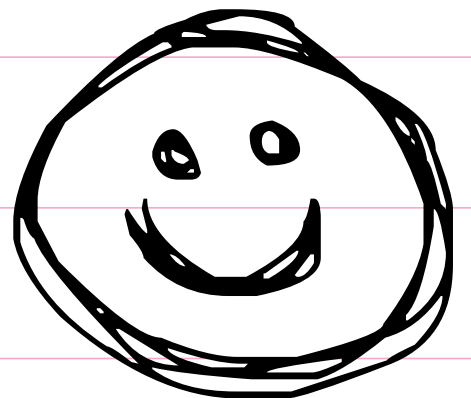

Today the Doctor is stopping Tuktuk's medicines and removing the iv. He will be ready to go home tomorrow.

Yippee!

It's time to go home. The Doctor tells Tuktuk's parents all they need to do to look after him at home.
